

DT500R

BATTERY-POWERED ELECTRIC DUMPER
FOR LOADS **UP TO 500 KG**

ZERO EMISSIONS

QUIET

LOW MAINTENANCE

**High load
transmission**

**Semi automatic
skip tipping**

**Quick skip release
attachment for fast
replacement**

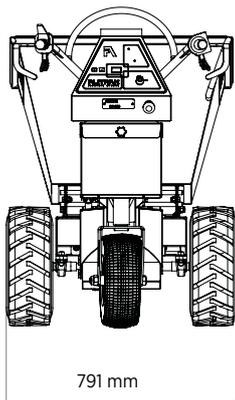

**Direction change
(forward-reverse)
by lever on handlebars**

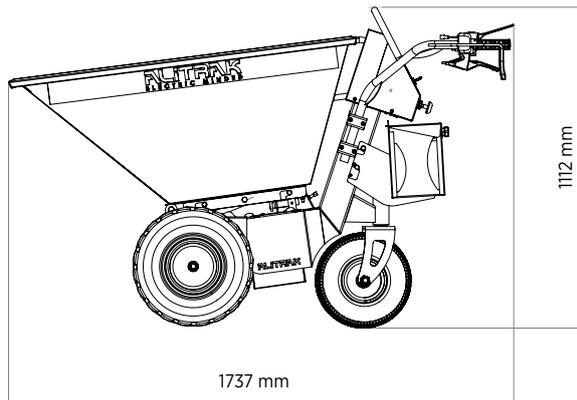

The DT-500 is an electric dumper equipped with three wheels, with a solid steel structure. Designed to work in construction, demolitions and industry, it is also useful in agriculture, management of riding stables, animal farms and nurseries. It has a semi-automatic skip tipping mechanism. There are several possibilities: skips with different capacities or a sided flatbed. The "Rental" version here described, is designed for particularly heavy work and equipped with high load transmission, anchor points for lifting and hour meter (ideal for rental situations).

FEATURES

Equipment body	3 wheels
Driving wheels	Tractor type
Skip	180 lt.
Driving control type	Handlebars
Accelerator	Hand-grip type
Direction change	Lever on handlebars
Battery charger	Integrated
Dashboard display	Remaining battery charge Equipment failures Hour meter
Parking brake	Electromagnetic
AGM batteries	2 x 12V/85 Ah C20
Electric motor	24V/900 watt S1
Product net weight	190 kg

PERFORMANCES

Loading capacity on flat surface	500 kg
Max gradient - Loading capacity	20% - 200 kg
Forward speed	5 Km/h
Reverse speed	2,5 Km/h
Battery recharging time	8 hours

Features shown are subject to change without notice

ACCESSORIES

Tug attachment

Skip extension

Skip 250 lt.

Snow blade

Poliurethane filled wheels

Different tyres and tread profiles
