

Multifunctional and reversible mat suitable for heavy duty ground protection and temporary access.

- Simple and fast to install with quick and easy-to-use connectors (on average 15 minutes for 50m² coverage)
- Enables you to drive cars, forklifts, trucks and cranes up to 80 tonnes, without causing significant damage to the ground underneath
- Allows vehicle access over unstable ground such as mud and soft sand, preventing costly time wasting extraction of "stuck" equipment
- Vehicle and pedestrian anti-slip surfaces
- Has an easy-to-clean pattern which can simply be brushed or hosed down to remove mud
- Available with or without hand holes
- Comes in various colours, including a translucent version*
- Can be customised
- Can be connected to any other mats on the market
- Guaranteed for 10 years**

* Minimum order quantity applies

**When used in accordance with manufacturer's recommendations
